

Occupational & Environmental Hygiene in Hong Kong

Forum
HKIOEH
AGM 2008

Occ/Env Hygienist

- To protect the health of
- workers in occupational hazards
- public in environmental hazards

Our Expertise

- Anticipation
- Recognition
- Evaluation
- Control

Our work in Industry

- In Hong Kong
- In China
- Oversea

Opportunity

Review the health hazards because there are

- New technology
- New materials
- Emissions

Non-industrial

- Medical & Health care
- Services

Promote: let people know about us

- CEOs
 - engineers
 - workers
 - Public
 - children
- through Education

Future of the Hygienist

- New economic and new technologies
 - Higher expectation on hygienists both technically and on people skills
- Abstracted from Dr. Hau's presentation in Technical Conference 2007
- Furthermore:
New level of acceptable risk
